# PART# 7024 LOWER BILLET GRILLE &
PART#7026 LOWER BILLET GRILLE W/ FOG LIGHTS

Pre-fitting the billet grille: Place the billet grille in the lower mouth opening of the bumper. Center the grille in the mouth opening and make sure the grille bars are parallel to each other. Mark the mounting locations for the grille and drill an 1/8" hole in the marked locations.
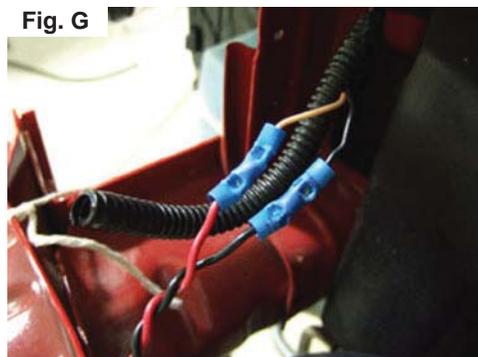

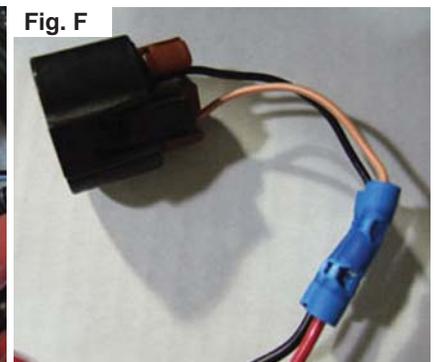

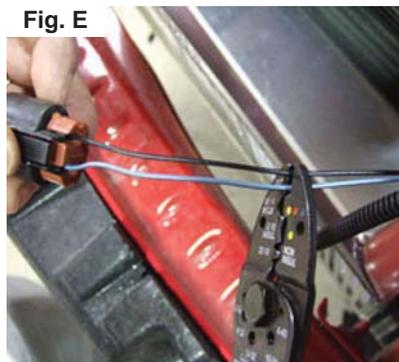

Installing the billet grille: After the bumper has been painted, place the grille in the mouth opening and use the eight Phillips screws provided to the secure the grille to the bumper in the pre-drilled locations **as shown in fig A**.

(Part# 7026) Installing the fog lights: Align the light mounts, with the three holes in the back of the fog light bucket and snap it into place **as shown in fig B**. With the tapered holes in the light bezel facing up, screw it to the light bucket **as shown in fig C.** The light buckets have two steps on the back of them to help align it to the grille. Align the steps on the

screw locations

(Part# 7026) Extending the factory fog light plugs: The factory fog light wires must be cut and extended to reach the fog lights in the lower billet grille. Peel back the black wire loom and cut the wires five inches from the back of the plug **as shown in fig E.** Strip a 1/4" off the cut ends of the plug wires and the extending wires that are provided in the hardware pack. Use the supplied butt connectors to connect the plug wires to the extending wires **as shown in fig F. (Black goes to black.)** Use the supplied butt connectors to connect the extending wires to the factory wire harness **as shown in fig G.** Wrap all the connections with electrical tape to keep moisture from getting to them.
